

Ambulatory Glucose Profile

July 02, 2026 — August 01, 2026

SAMPLE — synthetic data

Days of Data	% Time CGM Active	Average Glucose	Glucose Management Indicator	Coefficient of Variation
30	100%	113 mg/dL	6.0%	18.6%

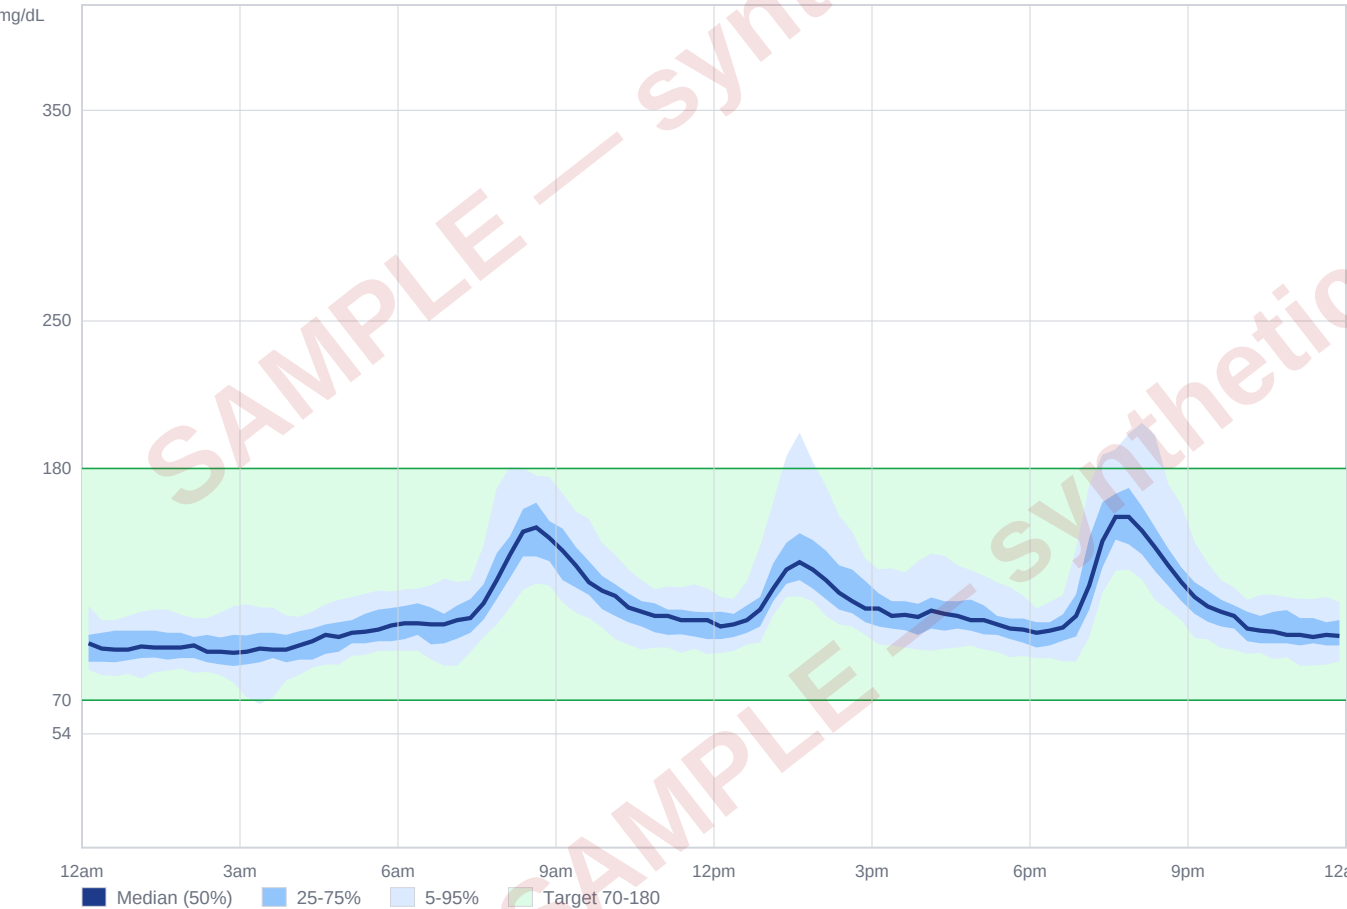

Time in Ranges

8640 readings — each band shows its share of all readings.

Ambulatory Glucose Profile

All days in range overlaid on a single 24-hour day (local time)

Behavioral Context

SAMPLE — synthetic data

Meals, medication, exercise and hydration by local time of day
